Mobile Frontend Engineer/Lead • Almosafer

February 2014 - January 2016

https://www.almosafer.com/en
https://apps.apple.com/app/id928866584?platform=iphone
https://play.google.com/store/apps/details?id=com.travel.almosafer&hl=en&gl=US

Built the first generation of Almosafer mobile iOS/Android app
*

Served as the architect and technical lead for the front-end development of the Almosafer hotel booking mobile
application in early 2014. The new mobile app included the following main features like Search and Evaluation,
Selection, and Booking. The search engine used the following parameters to get optimized search results.
1) Destination (city),
2) Dates (check-in/checkout dates)
3) Number of people (adults, children)
4) Number of rooms
*

Built the view of the results module that lists the hotels that match the initial parameters. Ratings and price for
rooms, also filters and sorting based on budget, reviews, reservation policy.
*

Built the screen which shows accommodation details including Overview, Photo gallery, Amenities, Special offers,
Review, Map, Room status
*

Built the completed payment process for customer's booking. It leads a user through an easy and safe
transaction via our app. Integrated credit card, PayPal payment APIs.
*

Integrated Google analytics, test flights, some other third party libraries like Mixpanel, advertising SDKs and
TripAdvisor.
